

MARINE PEDESTAL

Multifunctional pedestal for heavy and medium machine guns for smaller patrol and special operations boats and large vessels.

H&K 40mm GMG
mounting

PKM 7.62mm mounting

NSV 12.7mm mounting with Combinent cradle

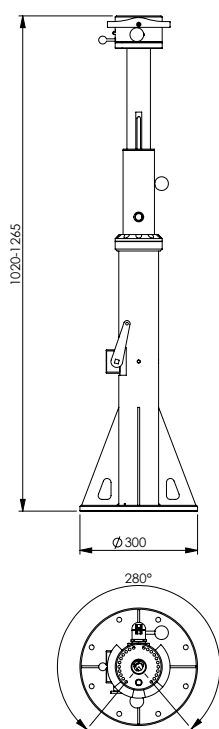

MARINE PEDESTAL

Combinent Marine Pedestal is specially designed for use in smaller patrol and special operations boats but works also for secondary armament in larger vessels.

Pedestal weapon compatibility for various guns is ensured with Combinent adapters made for customer specified interface. Also Pedestal mounting on a boat can be modified for customer needs.

Double secured locking system holds the gun tightly in high-speed driving in rough sea conditions. Installation and switching between different guns is fast and easy and can be done by a single person. User specific height adjustment is done by inbuilt power aided lifting mechanism.

Pedestal has passed extensive field tests and is in service with Finnish Navy.

SPECIFICATIONS

Weight:	34,5kg
Height:	Adjustable between 1020mm – 1265mm with 5 locking positions.
Weapon traverse:	280° in 10 degree increments.
Elevation/Depression:	-45/+45 degrees
Weapon compatibility:	Heavy and medium machine guns and grenade launchers with Combinent adapters.
Other:	Double secured gun hold locking system.
Material:	Stainless steel
Option:	Holders for ammunition cans.
Part no.:	33533
